

TEKNO CASES. MODERN BRAND AMBASSADORS AND SALES PROMOTERS FOR YOUR PRODUCTS AND SERVICES.

W.AG
FUNKTION +
DESIGN

Case solutions for your success.

Wolfgang Wagester
CEO of W.AG Funktion + Design GmbH

TEKNO cases from W.AG Funktion + Design GmbH **Milestone** from product packaging with a protective function **to modern brand ambassador**

Modern, design-oriented and functional plastic cases do not only have the task to protect and store the content but are important brand ambassadors for our customers' products.

By its shape, colour, surface decoration and inlay design, the case offers an unique opportunity to realise a very sustainable and permanently present product presentation, from the distribution system right up to a permanent use by the endcustomer.

Meanwhile TEKNO cases from W.AG are already classic among the plastic cases because they implement that marketing principle for the benefits of our clients very successfully.

Make use of our experiences and services around the TEKNO case!

TEKNO - The classic since 1997,
up to date again and again.

NEW! TEKNO 2007S and M

The new TEKNO case

W.AG
FUNKTION +
DESIGN

- New sizes TEKNO 2007S and TEKNO 2007M
- Suitable for many application areas
- Ideal for storing and transporting loose documents or products

W.AG offers the technically innovative in-mould labelling (IML), so you can already promote your case content perfectly on the case's surface with brilliant photos.

Measuring Instruments / Optics / Precision Mechanics

High quality measuring instruments and sensitive optical devices require safe transportation and solid product protection. The plastic case TEKNO convinces through safe product storage and offers a comfortable handling during mobile use. When using in-mould labelling, technical information can already be indicated on the case itself.

TEKNO represents a perfect packaging solution for sensitive instruments from the medical and dental technology. Because of its versatility, TEKNO is also used in the pharmaceutical industry. Through inlays - specifically designed and manufactured to your preferences - an easy, convenient placement and removal of the content is given as well and an ideal product protection during transportation is ensured.

Tools / Machine Parts / Power Tools

Combined with individual foam inlays or deep-draw inserts, TEKNO guarantees a reliable protection for tools and machine parts even during extreme demands. Craftsmen and service technicians appreciate TEKNO being a robust and easy to handle transportation packaging.

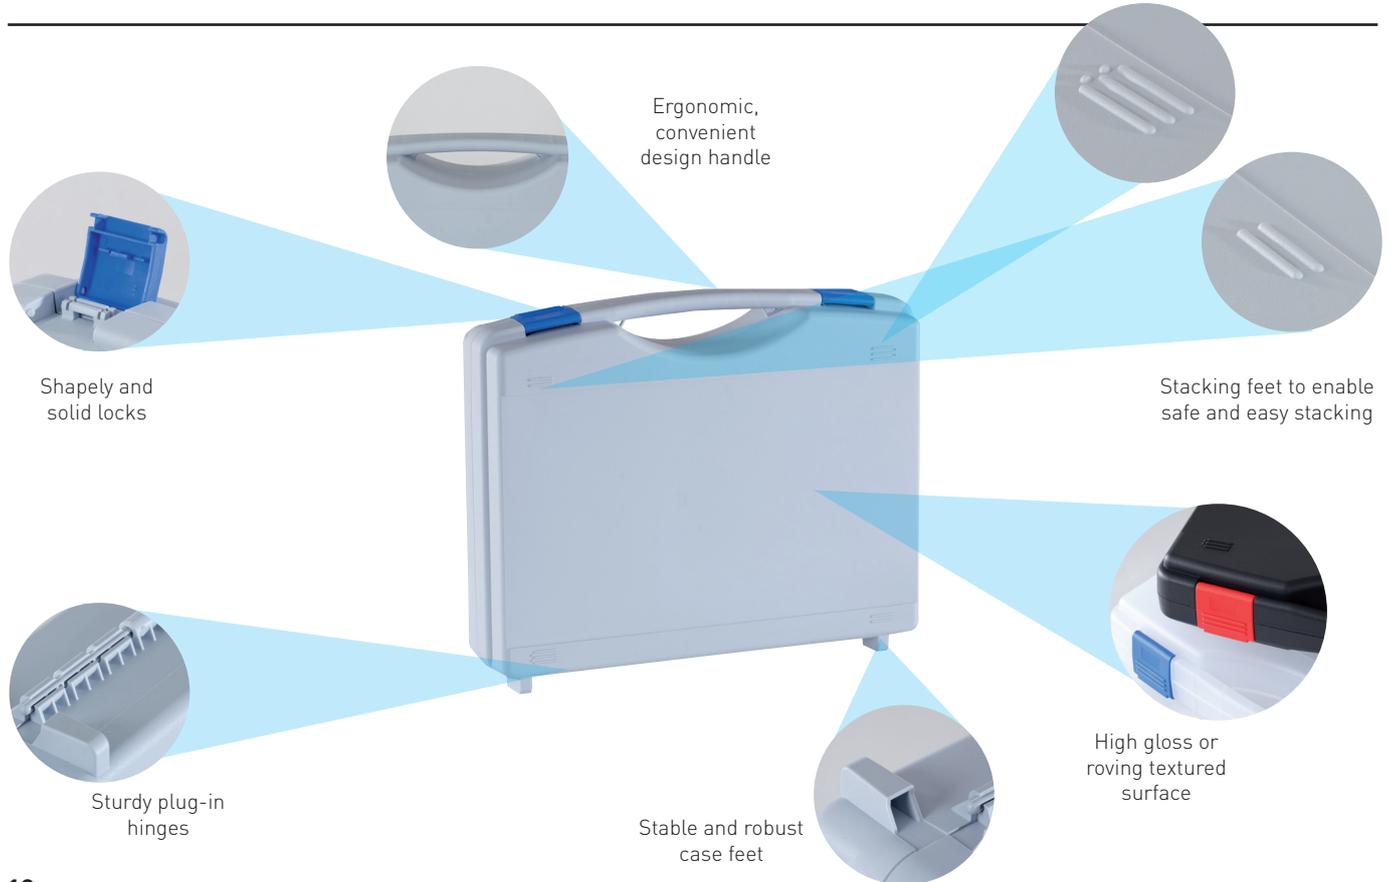

Your products inside the TEKNO case attract high attention even when they are packed - due to TEKNO's style and design. Matched to your corporate design in printing and colour, TEKNO becomes a perfect eye-catcher.

In-mould labelling (IML)

MODERN DECORATION PROCESS

- ▶ The offset printed PP-foil in photographic quality is inserted in the injection mould by the machine handling. Foil and packaging merge during the injection moulding process.
- ▶ Surprisingly affordable even at low quantities because of economic integration within the production process
- ▶ High protection against UV and abrasion
- ▶ Available for all TEKNO sizes as of 2015

Screen printing and pad printing

W.AG
FUNKTION +
DESIGN

SCREEN PRINTING

- ▶ High quality and permanent decoration process
- ▶ Available for all W.AG cases
- ▶ Doable in high gloss or roving textured surfaces

PAD PRINTING

- ▶ Individual pad printing can be applied to all W.AG case series
- ▶ Individual locks and individual design of the case's sides
- ▶ Your logo, slogan or product designation can be printed with high colour force
- ▶ Alignment of the case to your corporate identity down to the last detail

Individual inlays for your TEKNO case

Always individual and perfect in shape and design.

The foam inlays produced by W.AG are designed in its shape, foam quality and processing technology according to the products to be packed.

Design options:

- Bespoke foam combined inlays which can be tailored to the individual sizes and uses of your products
- Profile foam secures the surface of the content and provides a perfect hold
